No tie down needed when stacked properly

Model OD512313

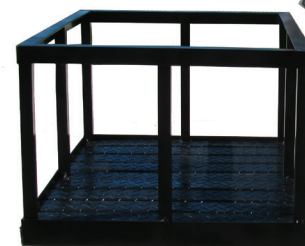

“When Quality Matters”

My husband and I live in Freeport, TX on the Gulf Coast where everything rusts. It seems like we replace our cargo carrier every year. We recently upgraded to a Texas Gulf Star Cargo Carrier and the high profile makes it nice to carry our loaded cooler without having to strap it down. Knowing the carrier will never rust and will last a very long time let's us know we made a good investment. - Debbie Fitzgerald

I travel to my hunting lodge every weekend in Rock Springs, TX, packing firewood for camp. At my age and with a bad back it is hard for me to climb into truck bed to remove firewood. The model OD512318 cargo carrier is the best thing ever invented for me! I can stack a weekend load of firewood without having to strap it down. And I don't have to bend over to unload making it much easier on my back - Ricky M.

We travel with our daughter and her children almost every weekend packing a cooler and clothes. The high profile cargo carrier has been a blessing! It is so easy now to stop and grab a snack out of the cooler without having to hassle with straps. But the real treat is to open the rear hatch of the SUV without having to remove the cargo when we need to grab a diaper! Best product ever for our family. - Beth Wadkins
